ABOUT ME

Senior Data Analyst with **15 years of experience** delivering reliable analytics and AI-enabled data products. Strong expertise in **product analytics, data quality, governance, and KPI standardization** across complex organizations. Proven ability to **partner with Product, Engineering, and Business** teams to build trusted data foundations that support decision-making, performance monitoring, and scalable growth.

WORK EXPERIENCE

Senior Data Analyst Consultant | Analytics Solutions

Independent | Paris, France | Feb 2025 – To date

- **Provided end-to-end analytics consulting across data analysis, BI delivery, and data quality**, building decision-ready dashboards, SQL-based ETL/ELT pipelines, and AI-assisted analytics features.
- **Invested in targeted upskilling**, completing advanced **Power BI and dbt (Data Build Tool) training**, and staying aligned with modern analytics and governance best practices.

Senior Data and Business Analyst

Analytics Intell | Paris, France | Oct 2021 – Jan 2025

Context: International data team delivering enterprise-level product and business analytics platforms with MicroStrategy, Tableau, SQL Server, Snowflake, and AWS, including AI-enabled data services.

Leadership & Actions:

- **Led Agile analytics delivery and coached an international team** (4–6), acting as the bridge between product, business, and engineering **to ensure data quality, adoption, and timely delivery**.
- **Designed scalable analytics platforms** with embedded **data quality and validation frameworks**, enhancing **KPI standardization, governance, and trust** across core business domains.
- **Architected SQL-based ETL/ELT pipelines and data models**, supporting scalable analytics and advanced analysis.

Impact: Increased data trust, +30% data reliability, –50% processing time, faster scalable reporting and decision cycles.

Data Analytics Consultant

Analytics Intell | Los Angeles, USA | Jul 2019 – Apr 2020

Context: Analytics engineering team delivering enterprise data platforms pour des clients bancaires using SQL Server, Teradata, and PostgreSQL.

Leadership & Actions:

- **Designed data warehouses and ETL flows** with a strong **focus on data reliability and validation**.
- **Led cross-functional teams** in **data validation** and **data profiling** initiatives, ensuring high data quality and consistency.
- **Supported stakeholders** in translating business requirements into **quality-driven analytics solutions**.
- **Drove improvements** in **product delivery, boosting adoption rates**.

Impact: Improved reporting accuracy and processing performance, while reducing data preparation time for business users.

Business Intelligence Consultant

HITactics | Los Angeles, USA | Oct 2012 – May 2019

Context: Cross-industry BI consulting across Healthcare, F&B, Retail, Supply Chain, and Fashion, supporting Sales, Marketing, Finance, and Operations teams.

Leadership & Actions:

- **Delivered end to end BI solutions** using MicroStrategy, Qlik, and Tableau, **integrating multi source data** from SQL Server, Oracle, MySQL, and PostgreSQL **into scalable, governed reporting platforms**.
- **Partnered with stakeholders** to translate **requirements into data models and validated dashboards**, ensuring accurate reporting and strong adoption.
- **Bridged business and technical teams**, leading **validation, documentation, and ongoing performance improvements**.

Impact: Improved reporting reliability and user adoption across multiple client organizations.

Project Management & Business Intelligence Specialist

General Motors | Mexico City, Mexico | Mar 2012 – Jul 2012

- **Led MicroStrategy platform & data quality** operations for Sales & Marketing.
- Launched **first MicroStrategy Mobile** reporting system.
- **Oversaw international data engineering team** ensuring daily data accuracy.

Professional Services Consultant – MicroStrategy

MicroStrategy | Mexico City, Mexico | Jul 2010 – Feb 2012

- Supported clients with **BI consulting services, data analysis, dashboard development, and data validation.**
- **Improved ETL reliability across multi-database** environments.
- **Delivered training, boosting BI adoption.**

Business Intelligence & ERP Management

Giesecke & Devrient | Mexico City, Mexico | Jun 2008 – Jun 2010

- Led the first BI initiative, migrating from Excel/Crystal Reports to governed MicroStrategy dashboards with automated ETL.
